

PART VI

Additional Resources

Resources

Los Angeles Department of Water and Power (LADWP)

LADWP is the nation's largest municipal utility. They have provided water and power services to Los Angeles residents for over 100 years. LADWP offers numerous rebates and programs to help their customers save water and money.

Water Conservation: www.ladwp.com/wc.

In this site are all the resources needed for commercial and residential property managers to save water both indoor and out. This site includes information on rebates, training seminars, and water conservation ordinances and codes.

California Friendly® Landscaping:
www.ladwp.cafriendlylandscaping.com.

LADWP explains how to design and install California Friendly® Landscape. This site also provides comprehensive tips for maintaining irrigation efficiency and gives suggestions on successfully maintaining your garden.

Metropolitan Water District of Southern California (MWD)

MWD is the largest distributor of treated drinking water in the United States. It is a wholesaler that delivers water to 26 member public agencies, which in turn provides water to more than 19 million people in Los Angeles, Orange, Riverside, San Bernardino, San Diego and Ventura counties. MWD provides an array of resources for commercial and residential water conservation.

BeWaterWise.com: www.bewaterwise.com

This site has links to water conservation rebates, innovation grants, and extensive tips and suggestions, including a complete guide to California Friendly® landscaping.

Home and Garden: www.bewaterwise.com/gardenspot

This site provides information on classes for landscape design, irrigation and maintenance, landscape rebates, and a complete design and plant guide for commercial and residential landscapes

Southern California Gas Company (SoCalGas)

SoCalGas is the nation's largest natural gas distribution utility and safely serves more than 21 million consumers through nearly 5.9 million meters in more than 500 communities. SoCalGas offers many of resources for customers to save energy, water and money.

Energy Upgrade California® Home Upgrade:

www.socalgas.com/save-money-and-energy/rebates-and-incentives/energy-upgrade-california

The Home Upgrade program can help make your home more comfortable, improve air quality, help you save energy and possibly lower your energy bills.

Energy Resource Center:

www.socalgas.com/for-your-business/education-and-training/energy-resource-center

The SoCalGas Energy Resource Center (ERC) is an energy-efficiency partner for energy and environmental decision makers. The facility is dedicated to sustainability and achieved LEED Existing Building Operations and Maintenance (version 4) Platinum Certification in June of 2015. The ERC offers seminars, demonstrations and consulting services to help businesses find cost-effective, energy-efficient solutions. They also host a beautiful California Friendly® demonstration garden.

Buried utilities can exist just about anywhere on a property – it is essential to check with DigAlert before digging. You can prevent damage to underground utilities and avoid service interruptions simply by utilizing our online service DigAlert Express or calling 811 two (2) business days prior to starting your excavation. This is a 100% free service, and more importantly – it is the law.

DigAlert must be consulted at least two day prior to digging. Some of the common reasons why gardeners, landscapers and contractors call DigAlert include digging for irrigation, planting trees and shrubs, installing fence posts, building ponds, and installing a mailbox.
