## *Verbena lilacina* 'De La Mina'

### Cedros Island Verbena

This attractive perennial quickly reaches 2'-3' tall and 4' wide. Foliage is bright green, dissected and fern-looking. During spring and summer, thin stalks rise above foliage, ending with fragrant, 1" diameter, lavender blue clusters of flowers, attracting bees and butterflies. This mound shaped plant prefers full to part sun. It is drought tolerant once it's established but will do better with occasional water during hot summer months.

# Verbena lilacina 'De La Mina' | Cedros Island Verbena

## CULTURE & DESIGN

### SUN

Full, Half

### ACCENTING FEATURES

Showy Flowers

### SEASONAL INTEREST

Spring, Summer

### WATER

Very Low

### SOIL TYPE

Sandy, Clay, Loam,  
Rocky, Unparticular

### LOCATION USES

Entry, Perennial  
Border, Parking Strip,  
Patio, Raised Planter,  
Walkways, With Rocks

### GROWTH RATE

Fast

### ADVERSE FACTORS

Attracts Bees
